

WHY HIRE AN EXPERT?

Henry Ford was asked, “Why do you build cars?” He replied, “Because I am good at it.” Henry wasn’t being arrogant. Hard work and perseverance made Mr. Ford into an expert at building quality cars at an affordable price. An expert saves his or her clients time and money.

What are the benefits to churches when a church architectural firm and church design/build firm are considered experts? The following are the benefits:

1. Experts draw from a wealth of knowledge and wisdom eliminating any expensive learning curve.
2. Experts go to the heart of a problem enabling them to help churches:
 - Distinguish between ministry needs and wants
 - Understand how to maintain unity during a church building program
 - Save a tremendous amount of time and money

3. Experts ask the right questions that brings the client's vision to light. With the vision confidently identified, the expert will assemble the right team of people using state-of-the-art software, communication systems, and building delivery systems.
4. An expert continually keeps up-to-date with the ever-changing landscapes in church design, construction techniques, ministry needs and church cultures, communities, and the list goes on.

When you find an expert that specializes in one type of design and construction – churches – you have found the very best for your project.

Call today for a no-cost, no-obligation on-site or on-line meeting with one of our Church Planning Specialists.
